The Pease Collection of Historical Instruments
1351 Main Street, Palmer, Massachusetts 01069

Melodeon by Geo. A. Prince & Co., Buffalo

Serial #7726 1849

In rosewood, pristine original condition \$750

A melodeon is a uniquely American reed instrument and can be a cherished period addition to any early American home, from Federal to Victorian. Often one is purchased for its beauty as a piece of furniture, and when closed used as a display table for photographs and memorabilia. But later as an owner explores its resources as a bona fide musical instrument, its enjoyment is redoubled.

Included will be a copy of Gellerman's *Playing the American Reed Organ*, now in its third printing. Herein will be found over one hundred selections of nineteenth-century music, together with sixty-two pages of graduated lessons.

HOURS: Saturday 10-5 Monday 10-7 EST, or by appointment
